In our Catholic School of 400 students, we use digital learning for the betterment of each child - to meet Common Core State Standards, administer online assessments, and make data-driven decisions. Examples of digital learning having the ability to take an Accelerated Reader test, and being able to research topics using reliable sources. However, our network is just keeping up with demand right now, and the need for a reliable high-speed network is only going to increase in the near future. Please increase the E-rate funding to help all schools have equal access to high -speed internetil
